ABOUT ME

Motivated Data Science and Computer Science student with hands-on experience in machine learning, predictive modeling, data analysis and full-stack development. I enjoy turning ideas into practical, working applications.

EDUCATION

Diploma in Programming and Data Science <i>IIT Madras, Chennai, India</i>	2023 – 2027
B.E. Computer Science <i>Mumbai University, Mumbai, India</i>	2023 – 2027

CERTIFICATES

IIT Madras — Diploma in Programming — IIT Madras [View certificate](#)
IIT Madras — Foundational Level — IIT Madras [View certificate](#)
Microsoft Certified: Power BI Data Analyst Associate — Microsoft [View certificate](#)
Microsoft Certified: Fabric Data Engineer Associate — Microsoft [View certificate](#)
AWS Academy: Cloud Foundations — AWS Academy [View certificate](#)
Data Science Essentials with Python — Data Science [View certificate](#)
Google Cloud Computing Foundations — Google Cloud [View certificate](#)
Green Skills and Artificial Intelligence — Skills4Future Program — Skills4Future [View certificate](#)

PROJECTS

Placement Portal Application FULL STACK
Full-stack placement portal for students, companies and admins with placement drives, applications and interviews. Flask, Vue.js, SQLAlchemy, SQLite, Bootstrap 5, Celery & Redis; JWT auth with 3-role authorization. [Watch video](#)

Vehicle Parking App FLASK
Flask-based web app for managing vehicle parking with authentication, booking and data visualization, using Python, Flask and SQLite. [Watch video](#)

RAG System for Tools in Data Science RAG / AI
RAG system answering student questions from Discourse posts and course content, with a chunking/embedding pipeline and a FastAPI /query endpoint backed by SQLite. [GitHub project](#)

Vehicle CO₂ Emissions Prediction MACHINE LEARNING
ML-based web app predicting vehicle CO₂ emissions using regression models built with Scikit-learn and an interactive Streamlit interface. [GitHub project](#)

Notes App FULL STACK
Notes application using MongoDB for storage, with create, view, update and delete features and backend APIs for reliable, persistent note management. [GitHub project](#)

Kaggle Projects (x3) KAGGLE
Three Kaggle projects showcasing practical dataset analysis, regression/classification modeling and end-to-end data science workflows in Python. [Watch videos](#)

INTERNSHIPS

Java Full Stack Developer — Virtual Internship — Jul 2025 – Sep 2025 [Certificate](#)
Java Full Stack Development [Certificate](#)
Artificial Intelligence & Machine Learning [Certificate](#)
Google Cloud Data Analytics [Certificate](#)

SKILLS

Programming Languages: Python, SQL, HTML, CSS, JavaScript
Frameworks & Libraries: Flask, Vue.js, Streamlit, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Bootstrap
Databases: SQLite, MySQL, SQLAlchemy ORM, MongoDB
Tools & Platforms: Git & GitHub, REST APIs, Jinja Templating
Backend & Security: JWT Authentication, Role-based Authorization, Celery, Redis
Data & AI: Machine Learning, Predictive Modeling, Data Analysis, Google Generative AI, RAG Systems
